

With its design based in the purity of its form it is fully adaptable to the space available within the shower zone. Purity is a solid shower tray with a thickness of 25mm, tremendously versatile due to its easy installation and wide range of made-to-measure formats and comes complete with all the benefits of being manufactured with Scene Materia. Scene Materia is situated within the group denominated as 'solid surface' materials – skinless, synthetic materials whose outermost surfaces have the same properties as their interiors.
